Diamond Crystal® Winter Melt® Ice Melter

The ice melt standard™

Winter Melt® ice melter contains large and small Sodium Chloride crystals for greater melting speed and longevity.

- Works down to 5°F/-15°C
- Does not leave oily residue
- Available in 10, 25, 50 and 80 lb. bags

Directions for Use:
Remove slush and as much loose snow as possible before ice melter application. Spread Winter Melt® evenly across surface area. Apply ½–1 cup per square yard, depending on ice thickness and air temperature, as needed. Reapply as necessary. When ice and snow soften, remove slush and any excess ice melter from pavement for good concrete maintenance.

Diamond Crystal®
A Brilliant Choice™

Salt-1048/7-13/SM

Storage information:

- Salt crystals contain sodium chloride, which may harden and cake if exposed to moisture
- Close and reseal container tightly to keep product dry, or place in a moisture-proof container
- Store in a dry place
- Always store ice melters out of reach of children and pets

Contains:

100% Salt (Sodium Chloride) CAS No. 7647-14-5

Precautions and Best Practices:

Diamond Crystal® Winter Melt® is not intended for human or animal consumption. If ingested, drink water. If discomfort occurs or persists, contact your doctor or veterinarian.

Winter Melt® ice melter may be used to remove snow and ice from concrete sidewalks, parking lots and asphalt surfaces. However, all ice-melting agents work by reducing the freezing point of water. This may result in more frequent freeze-thaw cycling of the melted snow and ice, which can cause surface scaling of concrete. As such, use only on properly placed, cured and sealed, air-entrained concrete. To lessen the possibility of freeze-thaw cycling and potential damage, promptly remove slush as it is formed. DO NOT use on porous or improperly cured concrete, concrete less than one year old, precast concrete items, masonry, mortar, wood or other porous materials. As with any ice-melting agent, particular care should be used when grass and vegetation are adjacent to the deicing surface as excess application may cause damage. Consumer uses this product at his/her own risk.

For MSDS, stain test results and other information, consult the FAQ section at www.cargillsalt.com, or contact us at 1-800-428-4244.
